✉ [ks2012150@gmail.com](mailto:ks2012150@gmail.com)  [kashish-sharma](https://www.linkedin.com/in/kashish-sharma)  [kshshrma](https://github.com/kshshrma)  +917084812337

## Education

**Sharda University, Greater Noida**

*B.Tech in Computer Science and Engineering*

**Aug 2024 – Present**

*CGPA: 8.67 / 10*

**Central Hindu Girls School, Varanasi**

*CBSE Class XII*

**Apr 2021 – Apr 2023**

*Percentage: 67%*

## Experience

**Full Stack Web Developer – Thiranex**

**May 2025**

- Developed and maintained responsive web applications using frontend and backend technologies.
- Worked on website functionality, UI improvements, and performance optimization.
- Collaborated with team members to design and implement scalable web solutions.
- Integrated APIs and handled backend logic for dynamic web features.
- Participated in debugging, testing, and improving user experience across projects.

## Projects

**Bharat Verse**

**Nov 2025**

*Full Stack Project*

- Developed a web-based platform showcasing products and culture from different Indian states.
- Implemented user authentication (Sign Up / Sign In) and subscription-based payment system.
- Designed a responsive UI for seamless browsing of region-wise categories and products.
- Focused on promoting Indian cultural diversity through a unified digital platform.
- **Tech Stack:** HTML, CSS, JavaScript, React (Vite), Node.js, Supabase, Git

**Task Scheduling System**

**Feb 2026**

*Backend Project*

- Developed a Java-based console application to optimize task scheduling using Dynamic Programming.
- Implemented an algorithm to maximize total revenue under deadline constraints.
- Integrated PostgreSQL using JDBC for persistent task storage and management.
- Built a menu-driven interface to add, view, and delete tasks efficiently.
- DP table for better visualization and understanding of optimization logic.
- **Tech Stack:** Java, Dynamic Programming, PostgreSQL, JDBC

**Swachh Setu**

**Apr 2026**

*Full Stack Project*

- Developed a web-based platform to report and manage waste issues for cleaner urban environment.
- Built an interactive frontend using React (Vite) for real-time complaint submission and tracking.
- Implemented backend services using Node.js to handle user data and complaint management.
- Enabled features like location-based reporting, status tracking, and user interaction. Designed APIs for efficient communication between frontend and backend systems.
- Designed APIs for efficient communication between frontend and backend systems.
- **Tech Stack:** React (Vite), Node.js, JavaScript, HTML, CSS, Supabase, Git

## Honors and Awards

- Winner at IILM Hackathon, 24-hour national hackathon (Feb 2025)
- Second Runner-Up at Tula's Institute, 36-hour national hackathon (Sept 2025)
- Finalist at Hackathon 2026, 24-hour national hackathon at IIT Bhubaneswar (Feb 2026)

## Competitive Programming

- LeetCode kshshrma : 200+ problems solved

Skills Summary

---

|                       |                                                                                                        |
|-----------------------|--------------------------------------------------------------------------------------------------------|
| Languages:            | C, C++, JavaScript, TypeScript, Python, Java                                                           |
| Frameworks/Libraries: | React.js, Node.js, Express.js, Tailwind CSS, Framer Motion                                             |
| Databases:            | MongoDB, PostgreSQL, MySQL                                                                             |
| Tools:                | Git, GitHub, Postman, VS Code, Vite                                                                    |
| Course Work:          | DSA, Database Management Systems, OOP, Operating Systems<br>Computer Networks, Software Engineering    |
| Technologies:         | REST APIs, Full-Stack Web Development, Responsive Web Design,<br>AI Integration (Gemini API, Groq API) |

Leadership & Activities

---

- National Cadet Corps (NCC) Cadet
- Developed leadership, discipline, teamwork, and communication skills through military-style training and camps.
